

Static / Default Routing Network

Place Static Routes on each router and ensure you can ping all devices. ONLY use a default route in the Sales2 Router. Utilize the **Router#show ip route** and **Router#show interface** command to verify all networks are listed and utilize the **ping** command to ensure reachability.

Note:- Default Route command is. Router(config)#ip route 0.0.0.0 0.0.0.0 Fastethernet0/0
