

Assignment 2

Create a JavaScript enhanced webpage which creates greeting cards.

Here is a screenshot:

Make a Card

Receipient:

Phrase: ☒ Happy Eid
☐ Happy Indepence Day
☐ Happy New Year

Background Colour:

White
Red
Blue

Image:

Paris
Venice
Rome

Happy Eid Guest

- The user enters a name, selects a phrase, a background colour, and an image, and clicks on "Make Card", a card with given settings appears at the bottom of the webpage.
- The card should contain the Phrase selected along with the Recipient's name. The background colour of the card and image is also set. The card should be surrounded with a border, and the text and image should be centred within the card border.
- This webpage should have the title "Make a Card" and should be stored as make-a-card.html.
